JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

HONDURAS.

No yellow fever at Amapala.

UNITED STATES CONSULAR AGENCY,
Amapala, August 12, 1899.

SIR: Following the instructions from the Secretary of the Treasury, I have the honor to report that up to this day there has been no case of yellow fever in my consular district and the surrounding country.

Respectfully, yours,

RUBERTHOTS,

Acting United States Consular Agent.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Sanitary report from Puerto Cortez.

PUERTO CORTEZ, HONDURAS, *August 23, 1899.*

SIR: Since last report 1 death has occurred in a neighboring village, presumably of phthisis; no physician. One case of dysentery and 2 of remittent malarial fever, the first of either disease which have come under my observation. No suspicion of contagion or infection.

The daily temperature, 90° F., with light showers at night.

Five vessels have been inspected—*Foxhall, Dumois, S. Oteri, Stillwater*, freighters, and *Bergen*, cattle steamer, from Havana.

Respectfully submitted.

L. A. WAILES, M. D.,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

NICARAGUA.

Sanitary report from Bluefields.

BLUEFIELDS, NICARAGUA, *August 22, 1899.*

SIR: I have the honor to transmit my weekly report as follows: Have inspected and cleared the steamship *Fulton*, 1 passenger; the steamship *Jarl*, 1 passenger; steamship *Sulda*, 4 passengers. All these vessels were bound for New Orleans and were in good sanitary condition.

The mortuary report of Bluefields this week shows 5 deaths, 4 adults, 2 of which were from phthisis, 1 from typhoid fever, and the other from inflammatory fever. The fifth death was a child, of inanition. I consider the sanitary and health conditions of Bluefields and vicinity good.

Respectfully, yours,

D. W. GOODMAN,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

SANITARY REPORTS FROM OTHER PORTS.

COLOMBIA.

No yellow fever at Cartagena.

CARTAGENA, COLOMBIA, *August 16, 1899.*

SIR: I beg to report that not a single case of yellow fever exists in this consular district and surrounding. The city is perfectly healthy.

Respectfully, yours,

RAFAEL MADRIGAL,

United States Consul.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.
